

xen-SE Plus – Small/Medium Enterprise Intellectual Property Management

xen-SE Plus Small/Medium Enterprise Intellectual Property Management

xen-SE Plus is an easy-to-use IP information database, storing information for patent, trade mark and design applications as well as for agreements with third-parties, such as technology licensed in or out. Inventions, proceedings, such as oppositions, and general records, such as search details, can also be stored.

xen-SE Plus is intended for small to medium enterprises with 1-5 users operating individually or over a local network.

Data can be viewed in a spreadsheet-style list or a record at a time ...

Reference	Task	Owner	Due Date
XEN 10000/FR/P1	Complete Main Review	Linda Marsh	30/11/99
XEN 10000/FR/P1	Verify filing list	Formalities	28/12/99
XEN 10000/FR/P1	Create filing list	Formalities	02/01/00
XEN 10000/FR/P1	Create Inventorship Record	Linda Marsh	09/10/99
XEN 10000/FR/P1	Create Substantive Filings Folder	Linda Marsh	09/08/99
XEN 10000/FR/P1	ALERT! - Priority date near to 12 month limit		
XEN 10001/AvD	Check Form PCT/IB/304 received	Linda Marsh	01/06/99
XEN 10001/AvD	Check demand received	Formalities	11/09/99

The diary system includes an alerts process which highlights critical data situations such as a deadline about to be missed !!

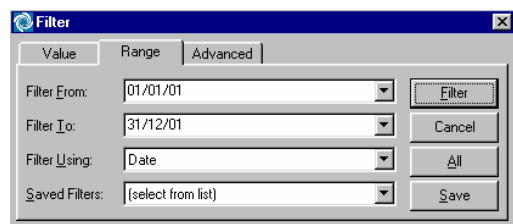

Information can be stored for payments such as for annuities and prosecution costs as well as fixed charges for specific tasks, such as office actions. Future forecasted payments can also be recorded for easy cost estimations.

To/From	Type	Details	Debit	Credit	Budget
Pillsbury, Madison & Sutro	Annuity	Annuity	45.60		No
Pillsbury, Madison & Sutro	Annuity	Annuity	50.77		Yes
Pillsbury, Madison & Sutro	Annuity	Annuity	55.64		Yes
Pillsbury, Madison & Sutro	Annuity	Annuity	57.88		Yes
Pillsbury, Madison & Sutro	Annuity	Annuity	59.41		Yes
Pillsbury, Madison & Sutro	Annuity	Annuity	60.89		Yes
Pillsbury, Madison & Sutro	Grant Fee	Registration Fee	102.45		No

A built-in address book stores contact information for all internal and external contacts which can be used as part of the comprehensive mail merge facilities which enable standard letters, documents and forms, in Microsoft Word or Adobe Acrobat format, to be generated from data in xen-SE Plus. The system also will link to folders on your PC or network enabling the linking of data records to associated documents.

The system is fully configurable allowing you to define the data fields with the names that you are familiar with. The system is completely extendable enabling you to add data fields, data views and reports.

Data finding and filtering is a simple process allowing the data you need to see to be quickly accessible.

xen-SE Plus – Small/Medium Enterprise Intellectual Property Management

Features

- Standard spreadsheet-style interface with easy record navigation.
- Single record view allows all data for a record to be viewed on a single screen.
- Comprehensive data filtering process to match any number of search criteria.
- Data filters can be saved, and assigned to customised data views, for easy recall.
- One-key quick filter enables instant filtering of the currently selected field, such as, all US applications.
- Diary management system with user-definable automatic task generation based on data entry and date changes.
- User-definable alerting process to highlight critical data situations, such as close deadlines.
- Stores data for individual country patent, trade mark and design applications as well as for regional applications, such as PCT.
- Stores data for agreements with third-parties, such as for technology licensed in or out.
- Stores data for inventions, proposals, etc. prior to filing.
- Stores data for proceedings, such as oppositions.
- Stores data for general file records, such as searches.
- Payment information can be stored such as for annuities and prosecution costs as well as fixed charges for specific tasks performed, such as office actions.
- Future forecasted payments can be recorded for easy cost estimations.
- Built-in address book for all internal and external contacts.
- Records can be linked to folders on your PC or network enabling linking of data to associated documents.
- Records can be categorised for easy analysis by a category name, or by cost centre.
- Comprehensive mail merge facilities which can merge any field in xen-SE Plus with letters, documents or forms in Word or Acrobat format.
- Mail merge can produce standard merge data files for interfacing with other compatible applications.
- Customisable field names with 30 extra "spare" fields per record type, enabling many more fields to be added as needed.
- All database management facilities are available from inside xen-SE Plus for management of any number of xen-SE Plus databases in Microsoft Access format.
- Easy copy and paste to move data in and out of xen-SE Plus.
- Built-in reporting facilities, with print preview, including options to create your own reports.
- Find and Replace facilities for easy data updating.
- Comprehensive help system with tutorial and example database.
